ANOTHER VICTORY FOR ROBIN HOOD

This Year, as Usual, the Sweepstakes on Open Bread Making Competition at the Calgary Fair was won by Bread made from Robin Hood Flour.

The Winning Loaf was chosen out of several hundred loaves entered in the competition.

Year after year the result in the Open Bread Making Competition at the large fairs such as Calgary, Edmonton and Vancouver, etc., is the same—Bread made with ROBIN HOOD FLOUR invariably winning First Prize.

To be Assured of Good Results with your Bread and Pastry SPECIFY.

Local and General

Who said it couldn't rain? The rain of last Sunday and Monday is claimed to be the greatest in five years.

Mr. and Mrs. A. L. B. Nicholson left on Wednesday morning for Makaroff, Manitoba, where they will make their home. Mr. Nicholson will have charge of the elevator there.

A number of places were hit by hail last Sunday night, including R. Colling, Capt. Wigle, G. Fox, Landymore's and Salters.

The twin son and daughter of Mr. and Mrs. Joseph Jenson, of Bottrel, were baptised by Rev. R. K. Swenerton last Saturday at their home.

CHURCH OF THE ASCENSION.
Rev. Wilfred C. Marsh, Incumbent.
Sunday, August 17th.
10 a.m. Sunday School.
10:30 a.m. Morning Prayer and Sermon.

Among the teachers returning to their schools in this district for another term are Miss Watson at Sunshine, Miss M. Ontkes at Crossfield and Miss Ruddy at Floral.

UNION CHURCH, CROSSFIELD
Rev. R. K. Swenerton, B.A., B.D.,
Pastor.
Mr. A. Knox, Sunday School
Superintendent.
Sunday School & Bible Class 2 p.m.
Preaching Service at 7:30 p.m.

On Sunday, Aug. 3rd, the Pastor Next Sunday, Rev. M. Bell, Provincial Secretary of the Men's Christian Federation Movement of America will preach, and the Pastor will conduct the service. Mr. Bell has a timely message to bring in connection with the forward movement of today, and his addresses will be heard with interest. The Sacrament of the Lord's Supper at the close of the evening service. The Lord's Table is open to all Christians.

Notice.—The Orchestra will go out to Bottrel 11 a.m., Beaver Dam 2 p.m. and Sunshine 4 p.m. on Sunday, Aug. 17th in connection with the Services at these points. They will play a number of selections at each place. The public are cordially invited to be present.

Mr. G. T. Bolton, Chief Inspector of the Imperial Bakinof Canada, was a visitor to town on Saturday last.

Mrs. McLeod and children are spending a vacation out west.

We are pleased to note that the Boy Scouts' under Scoutmaster McRory are getting together again.

Mr. and Mrs. A. H. Stranks and family, of Brandon, are visiting with Mr. and Mrs. Jeffery, also Miss Otta McKenzie, of Brandon, sister Jeffery.

We hear that Oscar Lynn has purchased a quarter section of land in the Bowden district.

FOR SALE.—A Lighter Day Oven, 1 Heater, Small Washstand and Dressing Table, and Chamber Ware. Apply Mrs. J. T. Armstrong, Crossfield.

Good Roads A Necessity

Canada, and especially that greater and new Canada comprised within the three Prairie Provinces of the West, have numerous problems to work out in order to promote the development of our great natural resources, encourage immigration and permanent settlement on the land, ensure the prosperity and comfort of the people, and attract visitors from all parts of the world. To solve these many problems will require patience, courage and capacity on the part of Governments, municipalities and people, as well as large annual expenditures of money.

It is important, therefore, that all works inaugurated should, as far as possible, be of a permanent character, well planned, scientifically constructed, and their upkeep and efficiency maintained. In this article it is not the intention to deal with more than one of these many and diversified problems. Some people may think the creation of good roads is not the most pressing of Western problems, but few, if any, will deny its importance.

During the past half century Canada has been busy building railways,—an enormous and burdensome task in view of the magnificent stretches of territory that had to be covered, with great barren spots like the north shore of Lake Superior and the mountains of British Columbia to be bridged, with many and great rivers to be spanned, and with but a small population to bear the expense and provide traffic for the completed lines. It is not to the discredit of Canada, therefore, that in this Dominion less attention and money has been devoted to good road building than is true of other countries.

With the advent of the automobile, and its general adoption for both passenger and freight carrying purposes within the past two decades, a revolution has been worked in the primary means of transport, and what was regarded as a good road a few years ago will not, under modern conditions of automobile traffic, stand the strain. The time has come, therefore, when the people of Western Canada must face the necessity and the expenditure involved in abandoning the old dirt roads and creating permanent highways. To continue spending large sums of money annually on dirt roads is now a wasteful procedure, because the cost of upkeep in a few years' equals, if it does not exceed, the original cost, and if the roads are not maintained the whole expenditure is waste.

The magnitude of the task may be judged from a few Saskatchewan figures. There are over 200,000 miles

of road in that Province. A Government survey of the Province has established the fact that there is little stone available for crushing to be used as macadam; suitable sand and gravel deposits are few and far removed in most cases from where it would be required in road construction. On the other hand, Saskatchewan has now over 52,000 licensed automobiles, and the number is increasing every week; fully two-thirds of which are owned by farmers. The Provincial revenue from license fees totals from \$750,000 to one million dollars a year. The situation in Saskatchewan is proportionately true of the other Western Provinces.

The automobile is no longer a luxury but a necessity, but its value to the farming community of the West depends largely on good roads. The old-style dirt road will not suffice. After a rain they are useless and the automobile is tied up. In winter they frequently become impassable. Permanent roads would be available rain or shine, while in winter, with our comparatively light fall of snow, dry snow, the roads generally would be swept clean by the winds.

Then there is the saving of time, gasoline consumption, wear and tear which comes with good roads. The problem of getting to market for supplies and repairs, and from the farm to market with produce, is essentially a farmer's problem. In many cases his success in solving it determines the amount of his year's profits. A large motor truck manufacturing concern in the United States recently made a series of tests to determine just how much gasoline and time was wasted during a trip over unimproved highways. A two-ton truck started under capacity load. It traveled ten miles—about the distance "to town,"—and back again. It was over an average country road with dirt, sand and gravel predominating. During this ten-mile trip, two gallons and one-half pint of gasoline were consumed. But in covering the same distance over hard-surfaced roads, the motor required only one gallon and one quart, a saving of almost a gallon. It also took the truck forty-two minutes longer to make the trip over the unimproved road.

Multiply this saving by the number of trips made during a season, and it is easy to see how good roads regulate the farmer's bank balance. It ought to be sufficient to convert every Western Canadian into an enthusiastic good roads booster.

Goodbye to Asthma.—Persons suffering from that extremely trying trouble known as asthma know what it is to long with all their hearts for escape as from a tyrant. Never do they know when an attack may come and they know that to struggle is aided in vain.—With Dr. J. D. Kellogg's Asthma Kennedy at hand, however, they can say goodbye to their enemy and enjoy life again. It helps at once.

Diplomacy

This story is credited to John Burroughs: "The Germans are the trickiest people in the world. A German at a dinner party took in a lady whose name he didn't catch. During the fish course he saw a man who had showed him up the week before in a crooked business deal, and he muttered to the lady, ferociously: 'Do you see that man to the left of the cierge? Well, if there's one man on earth I hate, it's him.'"

"Why," said the lady, he's my husband."

"Yes, of course," said the German, "that's why I hate him!"

The Iron Road In The Wilderness

Another Example of Eastern Conservatism as Invaded by Occidental Ideas.

In laying the last tie in its railway link connecting Jerusalem and Suez, the British Government admittedly has, of course, not exhausted the possibilities of obtaining speedy passage over this historic wilderness. When an aeroplane undertakes to soar from Mecca to the isthmus, as will inevitably soon be the case, the reckoning in days may well be reduced to a matter of hours; yet even the time now required—approximately five days—is shorter than was ever hoped for in the days when caravans alone plied the desert fastnesses of Sinai. There is another example of eastern conservatism as invaded by occidental ideas—a land of natural barriers, difficult to surmount in the twentieth century as in the time of Moses, has awaited the latter-day Aryan and his tamed steed, Steam, before yielding to the demands of progress.

BABY'S GREAT DANGER DURING HOT WEATHER

More little ones die during the hot weather than at any other time of the year. Diarrhoea, dysentery, cholera infantum and stomach troubles come without warning, and when a medicine is not at hand to give promptly the short delay too frequently means that the child has passed beyond aid. Baby's Own Tablets should always be kept in the house where there are young children. An occasional dose of the Tablets will prevent stomach and bowel troubles, or if the trouble comes suddenly the prompt use of the Tablets will relieve the baby. The Tablets are sold by medicine dealers or by mail at 25c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

With some men swearing off is a continuous performance.

Minard's Liniment Cures Garget in Cows.

Women Work On Nets

Receive 50 Cents for Each Box Spread on Reel.

Portland, Maine. — It would appear that every line of labor is open to women. They are now seen on the wharves in this city as gill-net spoolers. Each day, after a trip to the fishing grounds, the gill-nets have to be dried, and these reels are so arranged that the nets lie across them and are wound on similar spools. They receive 50 cents for each box of gill-nets which they spread on the reel. The women average from \$4 to \$4.50 a day.

No one need endure the agony of corns with Holloway's Corn Cure at hand to remove them.

Rights Of Provinces

Three Important Test Cases Are Before Privy Council.

London. — Three petitions for leave to appeal involving important questions whether the company's acts of Manitoba, Saskatchewan and Ontario are intra vires of the provinces were before the privy council. Before council opened their addresses, Lord Haldane intimated on behalf of the privy council that their lordships were ready to grant relief and expressed the desire that all three appeals be consolidated, and only one set of arguments be heard. Counsel promised to arrange this.

Minard's Liniment Cures Distemper.

Farm Loans in Saskatchewan
Farmers in Saskatchewan located in all parts of the province have been loaned \$2,500,000 by the Saskatchewan Farm Loans Board since it started operations in the summer of 1917. In these loans more than 1,500 farmers, many living in newly settled districts where the mortgage companies are sometimes reluctant to make loans, have participated. The money derived from the loans is being used for breaking land, erecting buildings, and securing livestock.

are worth a guinea a box

Sold everywhere in Canada and U.S.A. In boxes, 25 cents.

Mean
Friend: Is her father the kind of a man who would pursue you if you cloped?
Jack Poore: No, he's the kind of a man who'd move so you couldn't find him when you came back.

TIGHT MONEY PINCHING MANY

Thousands more are being squeezed by aching corns which can be cured quickly with Putnam's Corn Extractor. Being free from caustics, Putnam's is painless. Used successfully for fifty years. Use no other, 25c at all dealers.

Work On Stockyards

Alberta Company to Spend \$300,000 on Yards at Calgary.

J. M. Cameron, president of the Alberta Stockyards company, has announced that the company has started improvements in the yards, and on the erection of a modern office building, and will spend this year between \$250,000 and \$300,000. The yards will be extended and new pens erected, and all the work done will be strictly modern and up-to-date. The yards will be paved and sewerage put in, and the older portion of the yards will be modernized as far as possible.

"Fat, here's the dollar I borrowed of ye last week."

"Bedad, Mike, I'd forgot all about it."

"Och, why the divil didn't ye say so?"

A Million Dollars Farming Concern

The Noble Foundation, the name under which the concern of which C. S. Noble, the celebrated Alberta wheat grower, is the head, is now a million dollar corporation, its capital having been increased from \$750,000 to this figure. This company is farming between twenty and thirty thousand acres in Southern Alberta, growing all kinds of grain, and this year has about twelve thousand acres in crop.

Sleep is the great nourisher of infants, and without peaceful sleep the child will not thrive. This cannot be got if the infant be troubled with worms. Miller's Worm Powders will destroy worms and drive them from the system, and afterwards the child's rest will be undisturbed. The powders cannot injure the most delicate baby and there is nothing so effective for restoring the health of a worm-tormented infant.

It is a good thing for some people that the necessities of life do not include brains.

CHILDREN NEED HELP

Spanking doesn't cure bed-wetting—the trouble is due to weakness of the internal organs. My successful home treatment will be found helpful. Send no money, but write me today. My treatment is equally successful for adults, troubled with urinary difficulties. MRS. M. HUMPHREY, Box 42 Windsor, Ont.

MERRICK THOMAS, Druggist

Local and General

The infant son of Mr. and Mrs. P. Will was baptised by Rev. R. K. Swenerton, at Elba Schoolhouse on Sunday afternoon, July 27th.

Word has been received that Boris Hambourg, the world renowned Russian Celloist, will appear at the Union Church the 1st of November. He was born a Varong, Southern Russia, in 1884. He is now Director of the Hambourg Conservatory of Music, Toronto.

Notice.—On and after the 1st of August it is our intention to carry on our business in a strictly Cash basis. Our customers will oblige by bearing this in mind.

Tims and Cumings.

On Friday, August 1st, the home of Mrs. H. Schofield, President of the Floral Union, No. 115, was the scene of much merriment, when she entertained at a very delightful garden party. Lawn tennis and other games were played.

During the evening a very delicious supper was served on the lawn: The U.F.W.A. being the guests.

Our public schools in the district will be opening in the near future. May we be permitted to suggest that a public opening be held in the case of each school at which the school trustees, parents of the pupils, and others interested might be present in addition to the teachers and pupils. Such a community gathering would do a great deal to assist the progress of the school and the advancement of education. Coming at the most opportune time the beginning of the school year, it will link up the people with the school as a great community centre. The school trustees, teachers and pupils would all benefit by the increased interest. At present the people are too much detached from the school, it is something apart from them except as regards paying their taxes and sending their children. We believe that there is lying dormant a degree of regard for education which may be aroused into definite life and action. We would like to see the entire community linked up with the school and what better time could there be than at the very beginning of the school year? The chairman of the school board would be the natural one to preside, and brief remarks might be given by the members board, teacher and leading citizens, setting forth their aims and hopes for their school, and loyalty to it. We have our own people every year, who may have a pleasant, free and easy school opening. We suggest that the school trustees lead in arranging for this.

WEDDINGS

McDOUGALL—MASTERS

This happy event took place on Tuesday afternoon at the home of Mr. and Mrs. T. W. Masters, Bottrel. Their daughter Neta was united in marriage to Mr. Harry McDougall, the ceremony being performed by Rev. R. K. Swenerton in the presence of relatives and friends. The brother and sister of the bride were groomsmen and bridesmaid. In addition to the members of the family there were also present Mr. McDougall, Senr., Mr. and Mrs. Jim Reeves, Mr. and Mrs. Jack Reeves and Mr. and Mrs. Joe Rach.

BAILEY—LANDYMORE

At the home of Mr. and Mrs. George Landymore, on Wednesday afternoon their daughter Daisy was married to Mr. Alfred Bailey by Rev. R. K. Swenerton. The bridesmaid and groomsmen were Constance and Winifred Landymore, sister and brother of the bride. Others present in addition to members of the family were Mr. Walter Landymore and daughter Evelyn, Mr. and Mrs. C. Deeks, Mrs. Deeks, Senr., Cecil and Stanley Landymore, of Calgary, Mr. and Mrs. Louis Bliss, Mrs. Garwood and son Lawrence, Mrs. Borbridge and Miss Ada Whitfield. The bride was the recipient of many valuable and useful presents. After the wedding feast the bride and groom took the train for Calgary and Banff. Mr. Bailey is a returned soldier and expects to take up land in this district as soon as government arrangements are completed. His wife has been a resident in the district for many years and is therefore well-known and has many friends.

Branch of G.W.V.A. formed in Crossfield

A very successful meeting of the veterans was held at the Fire Hall, Crossfield, on Thursday evening for the purpose of organizing a local branch of the G.W.V.A. Colonel Carlisle very kindly came in to help the boys in organizing and took the chair for the evening. After the Colonel had given the boys a outline of what should be done, the following officers were elected: Ivor Lewis, President; Harry Fenwick, 1st Vice-President; Mr. Ash, 2nd Vice-President; Douglas Hall, Sec. Treas. All these men have been on active service at the front and have pledged themselves to do all they can to make the branch one of the strongest possible. It is hoped that all returned men in the district will join the association. Don't forget Unity means Strength.

At the close of the meeting the boys partook of light refreshments at Mrs. Stevens at the Colonel's invitation.

Nothing New.—There was a crash and bang and a scream, and a crowd collected round a stationary motor car in the twinkling of an eye. The man who didn't care a hang if the sky fell, curled his lip at the excitement.

"Don't you know what's happened?" cried an excited spectator. "Mrs. Gable was in that car. She has run her husband down!"

"Nothing in that," said the colt one. "She's been doing it ever since she married him."

MAIL CONTRACT

SEALED TENDERS, addressed to the Postmaster General, will be received at Ottawa until noon, on Friday, the 29th August, 1919, for the conveyance of His Majesty's Mails, on a proposed Contract for four years, twice per week on the proposed ACME R.R. No. 2, from the Postmaster General's pleasure.

Printed notices containing further information as to conditions of proposed Contract may be seen and blank forms of Tender may be obtained at the Post Offices of Acme and Crossfield, and at the Office of the Post Office Inspector:

D. A. BRUCE,

Post Office Inspector.
Calgary, 18th July, 1919.

Kidney sufferer, health awaits you and happy cure is right at hand in Dr. Hamilton's Pills. Note carefully the above symptoms, if they fit your case, don't delay, but go at once to your dealer and procure the unfailing Dr. Hamilton's Pills of Manaké and Butternut, sold in yellow boxes, 25c each.

THE COW PUNCHER

—BY—
ROBERT J. C. STEAD

Copyrighted. Printed by special arrangement with Thos. Allen, Toronto.

(Continued.)

She might have ended the sentence in a way that would have come much closer to him, and been much truer, but conventionally had been bred into her for generations and she did not find it possible to free herself to speak the truth. Indeed, as she thought of her position here, she had to her she had become shamelessly unconventional. She thought of her mother, careful, correct—"All ways be correct, my dear,"—and wondered what she would say could she see her only child, on these wild, unchaperoned rides and in these strange confidences where she was a girl and Dave was a boy and all the artificialities with which society aims to protect itself had been stripped away. There was a dash of adventure which added to the relish of the situation.

"It's such a wonderful life," she continued. "One gets so strong and happy in it."

"You'd soon get sick of it," he said. "We don't see nothing." "We don't learn nothing." "Reenie, I'm eighteen, and I bet you could read an 'write better'n me when you was six."

"Did you never go to school?" she asked, in genuine surprise. "I know his speech was ungrammatical, but thought that due to careless training rather than to no training at all."

"Where'd I go to school?" he demanded bitterly. "There isn't a school within forty miles. Guess I wouldn't have went if I could," he added as an afterthought, wishing to be quite honest in the matter. "School didn't seem to cut no figure—until just lately."

"But you have learned—some?" "Some. When I was a little kid my father used to work with me a little. He learned me to read a little, and to write my name, and a little more. But your father didn't go right between him an' mother, an' he got to drinkin' more an' more, an' just makin' hell of it. We used to have a mighty fine herd of steers here, but it's all shot to pieces. We don't put up hardly no hay, an' in a hard winter they die like rabbits. When we sell a bunch the old man'll stay in town for a month or more, blowin' the coin and leavin' the debts go. But I've been 'lexin' him this year or two. I sneak a couple of steers away now an' then, an' with the money I keep our grocery bills paid up, an' have a little to rattle in my jeans. My credit's good at any

store in town," and Irene thrilled to the note of pride in his voice as he said this. The boy had real quality in him. "But I'm sick of it all," he continued. "Sick of it, an' I wanna get out."

"You think you are not educated," she answered, trying to meet his outburst as tactfully as possible. "Perhaps you are not, the way we think of it in the city. But I guess there's a good many things you can't learn of books, an' I guess you could show the city boys a good many things they don't know, and never will know."

For the first time he looked her straight in the face. His dark eyes met her grey ones, and demanded mean that?"

"Irene," he said, "do you 'Sure I do," she answered. "College courses, and all that kind of thing; they're good stuff all right, but they make some awful nice boys—real live boys, you know—into some awfully dead ones. Either they get the high brow and become bores, or the swell head and become duds. Not all you know, but lots of them. And then when they get out they have to start learning the real things of life—things that you have been learning here for ever so long. My father says about the best education is to learn to live within your income, pay your debts, and give the other fellow a chance to do the same. They don't all learn that in college. So when they get out they have to go and work for somebody who has learned it, like you have. Then there's the things you do, just like the other fellows born to it, that they couldn't do to save their lives. Why, I've seen you smash six bottles at a stretch, you going full gallop, and whooping and shouting so we could hardly tell which was which. And then you could make more money riding for city people to look at than most of those learned fellows, with letters after their names like the tail of a kite, will ever see. But I wouldn't like you to make it that way. There's more useful things to do."

He was comforted by this speech, but he referred to his accomplishments modestly. "Ridin' an' shootin' ain't nothin'," he said.

"I'm not so sure," she answered. "Father says the day is coming when our country will want men who can shoot and ride more than it will want lawyers or professors."

"Well, when it does, it can call on me," he said, and there was the pride in his voice which comes to a boy who feels that in some way he can take a man's place in the world. "There's two things a man can do."

Years later she was to think of her remark and his answer, consecrated them in clear red blood.

They talked of many things that afternoon, and when at last the lengthening shadows warned them it was time to be on the way they rode long distances in silence. Both felt a sense which neither ventured to express, that they had travelled very close in the world of their hopes, their sorrows and desires. Perhaps, as they rode along the foothill trail, they were still journeying together down the long, strange trails of the future: dim, visionary, exquisite trails; rough, hard, cruel trails hidden in the merciful mirage of their young hopefulness.

The shadows had deepened into darkness, and the infinite silence of the hills hung about them as they dropped from their saddles at the Elden door. A light shone from within, and Dr. Hardy, who was now able to move about with the aid of a home-made crutch, could be seen setting the table, while Mr. Elden stirred a composition on the stove. They chatted as they worked, and there was something of the joy of little children in their companionship. The day faded, watched for a moment through the window, and in Dave's heart some long-forgotten emotion moved momentarily at the sight of the good fellowship prevailing in the old house. Irene, too, was thinking; glimpses of her own suffering home, and then this background of primal simplicity, where the old cow-man cooked the meals and the famous specialist set the plates on the bare board table, and then back of all her mother, sedate and correct, and very much shocked over this mingling of the classes. But the girl's reverie was cut short by a sudden affectionate flicking of her fingers, and glancing downward she found Brownie, adopted early in her visit at the Eldens, expressing his fond-

BABY HAD DIARRHOEA WAS GIVEN UP

DR. FOWLER'S
EXTRACT OF WILD STRAWBERRY
CURED HER

Mothers should look well after their children during the hot summer months, as this is the time of year when the young ones are liable to all kinds of bowel complaints.

If your children have any looseness of the bowels due to experiment with new and untried remedies. Get one having stood the test of time, Dr. Fowler's Extract of Wild Strawberry has been on the market for the past 74 years. Don't accept a substitute and perhaps endanger your child's life.

Mrs. Willis Coupland, Sundridge, Ont., writes: "About four years ago my little girl, then a baby two months old, took diarrhoea. I took her to the doctor, but to no avail. After he had given her up, I read of Dr. Fowler's Extract of Wild Strawberry and immediately got a bottle. Within two days she was improving fast. I cannot over praise it enough. I hope some mother-sufferer will see this letter and lead them to a friend indeed." Price 35 cents. Put up only by The M. Milburn Co., Limited, Toronto, Ont.

ness in the only fashion at its command.

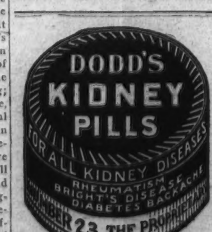

The calf had been an incident in her ranch experience. It was a late comer, quite unused to keep pace with the earlier fruits of the herd, and had the additional misfortune to be born of an ambitious mother, who had no thought of allowing her domestic duties to impair her social relations with the matrons and males of her immediate set. She had no place for old-fashioned notions; she was determined to keep up with the herd and the calf might fare as best it could. So they rambled from day to day; she swaggering along with the set, but turning now and then to send an impatient moo toward the small-brown body sticking on four legs, ungainly, like a pig, which had an unfortunate habit of fudding up, after the fashion of a jack-knife, upon unforeseen occasions, and precipitating the owner in a huddled mass on the ground. At rare times, when the heavier must have stooped about the herd, the mother instinct would assert itself, and the calf would return to her offspring, licking it lavishly and—encouraging it with mooings of deep affection, but such periods of bliss were of short duration. The lure of "the life" was too great for her; she felt herself born for more important roles than mere motherhood, and she would presently rush away to her favorite circle, leaving her begotten to such fates as might befall.

It was on such an occasion, when left far behind, that one of the ungainly legs found its way into a badger hole. The collapse was harder and more complete than usual, and the little sufferer would have died there had not been found by Dave and Irene in the course of their rides. During a moment's examination, drew his revolver, but Irene pleaded for the life of the unfortunate.

"Oh, don't kill it, Dave," she cried. "You couldn't kill it! Let's get the wagon and take it home. It'll get all right, won't it?"

"Never be worth a ——" said Dave, checking his vocabulary in the nick of time. "Once they begin to get trouble you might as well knock 'em on the head."

"But it's cruel," she protested. "Just to kill a baby like this!" "I don't know about the cruel," he answered. "You see, they're all raised, every one of 'em, to be killed, anyway. Just like people, I guess. Sooner or later. But if your heart's

W. N. U. 1275

get on this little catarrh, we'll save it long as we can."

So the calf was taken home and became Irene's special care. The mother was captured and tied up in the corral, and the calf, although lame, began to thrive and was strong. It was the only one of its kind, and the mother pined for the latest scandal from the great fields over the hills.

"Brownie, we'll call it," said Irene, "on account of its color."

"All right," said Dave, "on account of your sweater. That'll sort of show the connection."

So this night she rubbed its nose, and scratched its forehead, and then reproved its affection, which had a habit of running to extremes. And the mother cow moored from the corral, and Brownie forgot his lameness, and ambled away at the call of the blood.

Where Kaiser Prayed.

London.—The Berlin newspapers say that the former German emperor has written to the architect of Tögen asking him to preserve the Protestant chapel at Posen castle for Protestant services and not to convert it to Catholic uses. The former monarch said that it would be unbearable to him to have Roman Catholic services celebrated in the chapel into which he had put his whole soul, and in which he prayed for victory for Germany.

Genuine Aspirin Has "Bayer Cross"

Tablets Without "Bayer Cross" Not Aspirin At All

Get Genuine "Bayer Tablets of Aspirin" in Paper Package, Plainly Marked With the "Bayer Cross"

There is not a penny of German money invested in "Bayer Tablets of Aspirin." The manufacturer makes a profit by its sale or ever be allowed to acquire interest.

The original, world-famous Aspirin, marked with the "Bayer Cross," is now made in Canada and can be had at your druggist's in handy tin boxes of 12 tablets and larger "Bayer" packages.

Genuine Aspirin has been proved safe by millions for Pain, Headache, Toothache, Earache, Rheumatism, Lumbago, Colds, Grippe, Neuritis. Aspirin is the trade mark, registered in Canada, of Bayer Manufacturing of Monocellulose of Salicylic Acid.

Industrial Fiber On Floor Of Sea

Whole Deposit Contains 4,500,000 Tons Dry Weight

Adelaide, South Australia. — On the seashore of South Australia lies unused, and until lately almost unknown, a very large quantity of valuable fiber. It is calculated that the whole deposit contains 4,500,000 tons dry weight. All this comes from the growth in the shallow sea waters of that region of Posidonia Australis. This is not what is usually known as a seaweed, but is entirely of the nature of a flowering land plant, except for its habits of growing submerged in sea water. Its value comes from the fact that when its long, straw-shaped leaves wither, they remain round the stem as tufts or string-like threads. After a time a dense, matted bed of fiber forms on the sea bottom, and the whole colony gets higher and higher in the water as this bed gets thicker.

In some places the matted beds are seven feet thick and several square miles in extent, so that a fine potential industry is foreseen by the South Australian Government. Three large companies are already working at it, and markets are opening for its sale as insulating material for steam pipes and refrigerating plants.

Japanese to Visit Great Britain.

Tokio.—Japanese newspapers announce that three brothers-in-law of Emperor Yoshihito will soon visit Great Britain, France and the U.S. for military inspection. They will stay abroad for about three years. The Japanese travellers are Prince Kitashirakawa, Asaka and Higashi Kuni.

MONTH OLD BABY HAD SKIN TROUBLE

On Face and Hands. Itched and Burned. Cuticura Heals.

My baby was only a month old when her face and hands started to get red and scaly. The eczema started in the form of water blisters and itched and burned. She was so cross and fretful she could not sleep.

This lasted nine months when I tried Cuticura Soap and Ointment, and I used three cakes of Soap with two boxes of Ointment when she was healed. (Signed) Mrs. Oscar Pillion, Amherstburg, Ontario, May 7, 1918.

Cuticura Soap, Ointment and Talcum are all you need for all toilet uses. Bathe with Soap, soothe with Ointment, dust with Talcum. (Signed) Dr. A. S. Davis, U. S. A. Gold awarders.

Tourists See Ruins From Dirigible

Italian Navy Has Established Commercial Service for Visiting Rome.

Rome.—Tourists may hereafter visit Roman ruins, the Coliseum, Forum, Pantheon, Caracalla baths and the basilica of Constantine, St. Peter's and other Roman gems, not in aircraft, but in dirigibles, but in airships. The Italian navy has established a commercial dirigible service for visiting Rome and its environs from the air. The venture has met with complete success, for daily flights are filled to capacity.

The correspondent saw Rome from the Italian navy's dirigible M-1. Historic Roman landmarks viewed from the air gave the eye an entirely different aspect of their beauty and form. The riches of Rome in hidden gardens could not be appreciated from above; it was agreed.

Looking at the Coliseum from the ground, it appears to be a circular mass of ruined grandeur. From the air, the elliptical proportions of the second greatest accumulation of masonry in history are pronounced.

The proceeds from the dirigible service are given to the Italian funds for those disabled in the war. Tea is served in mid-air, and letters accepted for postage.

"I see; the greater the principal the greater the interest."

CURES A COLD QUICK AS WINK!

Easy as Rolling Off a Log to Stop a Cough or Cold With "CATARRHOZONE"

No more medicine for the stomach that isn't where your cold is lodged. Just breathe in the healing vapor of Catarrhozone—a soothing, healing medication that acts instantly. Colds, sore throat and catarrh fade like before Catarrhozone.

Every spot that is congested is healed; irritation is soothed away; phlegm and secretions are cleaned out, and all symptoms of cold and catarrh are cured. Nothing so quick, so sure, so pleasant as Catarrhozone. Beware of dangerous substitutes meant to deceive you for genuine Catarrhozone. All dealers sell Catarrhozone, large size, which lasts two months, price \$1.00; small size, 50c; sample size, 25c.

General Byng to Retire

London.—The Earl of Bessborough says that General Byng, formerly commander of the Canadians, is going on the retired list, and will be appointed to control the sailors' and soldiers' relief funds which will be co-ordinated.

The average man is to be seen everywhere—except in the mirror.

PILES

Do not suffer from Piles. Itching, bleeding, smarting, and all the other troubles of Piles. Do not neglect them. Get relief now. Sample box free if you mention this paper and enclose 10c stamp to pay postage.

Your Eyes

Granulated Eyelids, Eyes inflamed by exposure to Sun, Wind, and cold. Quickly relieved by Murine Eye-Salve. No Stinging, No Smarting, No Irritation. Your Druggist or by mail 60c per bottle. Free Book of the Eye Free Murine Eye-Salve. See Murine Eye-Salve Co., Chicago.

Government Plan For Marketing Crop

Ottawa. — The government has finally determined its policy in regard to this year's wheat crop. The main features of the plan are:

1. A board to buy and market the crop of 1919.
2. A cash payment on account to be made to the farmer at the time he sells his wheat.
3. The wheat crop of Canada to be sold by the board at the prevailing world prices, and the surplus proceeds, after expenses are deducted, to be distributed to the original sellers of the wheat in proportion to grade and quantity.
4. No speculation on exchanges of profiteering by handlers of the wheat crop of 1919 to the disadvantage of either producer or consumer.
5. A direct and immediate cash sale by the farmer and a speedy movement of the crop along the usual channels of transport.

The personnel of the board will be made known very shortly, as also will the initial cash payment to be made on account to the farmer at the time of the sale of his wheat.

The official statement reads: "The peculiar conditions of the wheat market in Europe and the U.S. where government agencies are almost exclusively employed and where government credits have to be provided for the purchase of wheat rendered it necessary to provide a similar agency in Canada, or to run the risk of being faced with an absence of adequate cash markets for Canadian wheat and a speedy and uniform movement of the same."

The government, after very careful enquiry and consideration, has therefore decided to appoint a board of experienced men invested with adequate powers to conduct the purchase and sale of the Canadian wheat crop of 1919, both for export and domestic purposes.

An additional cash payment by way of advance will be made by the board to the farmers for each bushel sold, based on the price of No. 1 northern at Fort William. At the conclusion of the season's sales, after the deduction of necessary expenses, the total excess realized over and above the first payment made to the farmers will be divided among the original

sellers in proportion to the grades and quantities sold. The farmer will thus receive the best world price for his wheat in a cash payment when the wheat crop has been disposed of.

A complete system of record, under the provisions of the Canada Grain Act and the regulations made thereunder will be kept which will enable the board to determine with accuracy and pay with certainty the exact proportion of the surplus due to each original seller. The board will sell wheat to the millers and sell the flour milled therefrom for export while for the domestic consumption the sales will be made as usual and the price will be restricted to a fixed maximum of reasonable profit, allowing within that maximum competition among the millers themselves.

The grain exchanges will not give facilities for the buying and selling of wheat and wheat during the crop season of 1919. The board will utilize, so far as available and necessary the existing facilities for the purchase, transport and handling of wheat with a view to distributing as little as possible the existing and ultimate methods of trade.

The government has been actuated in its decision by the desire to secure for the Canadian farmer the best possible world price for his product at the same time, to ensure to the home consumer that his flour shall not cost more than is necessary by actual world prices, such action has also been made necessary in order to secure the early marketing and speedy movement of Canada's surplus wheat, thus making it possible for the farmer to realize at once a substantial cash price for his wheat, and ultimately the fullest possible return of the balance of price received by the season's sales.

The establishment of this board does not interfere with the work of the board of grain supervisors in respect to that portion of the crop of 1918 delivered by August 15. Their powers and functions are continued in full force so far as that crop is concerned. The new board will have sole authority to deal with the crop of 1919, and with that portion of the crop of 1918, which will be undelivered by August 15.

Tornado Swept New Brunswick

Considerable Damage Done to Buildings and Wire Service by Wind.

Frederickton, N.B. — Considerable damage has been done by an electrical storm and wind, which swept over New Brunswick and reached the proportions of a tornado.

In Carleton county, by Florenceville and Centerville, eleven barns were razed by the tornado, while at East Florence, the warehouse of B. F. Smith and Company, Limited, a building about 100 feet in length, was smashed and blown to bits. Fifteen or twenty trees in its path were uprooted and telegraph, telephone and electric light poles were blown over by the tornado, which swept over a territory about a quarter of a mile in width and carried everything before it.

In a number of cases it is declared that loaded hay wagons which had been left standing in barns with the doors open, were lifted bodily and carried along by the tornado. The wagons being smashed and the hay scattered about.

Marshal Foch Welcomed

Gathering in London to Honor Great French General and President.

London. — Marshal Foch was given a most enthusiastic welcome by the city of London when, accompanied by General Weygand and other distinguished French generals, he drove in the state carriage from the Carlton hotel to the Guildhall to receive the honorary freedom of the city. The streets were gallily decorated. General Foch was received with loud and prolonged cheering and the playing of the Marseillaise when he entered the Guildhall, where a large and distinguished company, including Prince Arthur of Connaught, the French ambassador, Field Marshal Haig, Sir Henry Wilson, Right Hon. Winston Churchill, Right Hon. Messrs. Long and Barnes, and other members of the government were assembled.

The address conferring the freedom of the city described General Foch as a heroic general, a model for future generations of soldiers, and paid tribute to his brilliant part in the war, his stern sense of duty, patriotism and supreme knowledge of the science of war.

Acknowledging the freedom of the city and the sword of honor, Marshal Foch, speaking in French, paid a great tribute to the valor of the British soldiers, the skill of the British generals, especially General Haig, and also the wonderful work of the industrial class of Britain in providing the allies with abundant guns and munitions.

Dealing with the great German offensive of 1918, he remarked that the British army, though very exhausted, fought as brilliant a rearguard action as had ever been fought. (Cheers.)

He paid eloquent tribute to the magnificent qualities of the British and Dominion armies in the great counter-attack after August, 1918, and said that their dash and bravery were unsurpassable. They never stopped smashing the German war machine and would have gone through to the Meuse or the Rhine but for the armistice. (Loud cheers.)

French Bond Sale

Amount of Issue in View Totals \$50,000,000.

Paris. — Louis Nogué, the minister of finance, has just concluded an arrangement with a group of United States bankers headed by J. P. Morgan and company for the sale in the New York market of French treasury bonds at sixty and ninety days, similar to the British bond now on the market.

The amount of the issue in view at present totals \$50,000,000. The United States treasury department, it is said, was consulted regarding the arrangement and gave its consent to it.

W. N. U. 1275

Peace Will Be Ratified This Month

Congress Is Peeved

Say Treaty With France Calls On U.S. to Step In Without Their Consent.

Washington. — The peace treaty with Germany was discussed by President Wilson with four more Republican senators, all of them understood to be unwilling to accept the League of Nations in its present form.

Both the senate and the committee had recessed over today and many senators went over for the first time the official text of the treaty with France, submitted for ratification by President Wilson. Although most of them reserved judgment, it became apparent that the treaty's ratification would be bitterly contested.

Two objections about which debate is expected to centre are that the treaty departs from the tradition of no entangling alliances, and that it violates the constitutional provision that congress alone can declare war. Those who base their opposition on the latter ground declare that by promise to go to the aid of France immediately in case of an unprovoked attack on her from Germany, all the congresses would be deprived of their power to decide for war or peace whenever the treaty terms were invoked.

Bulgarians Seek Easy Terms

Hope That the Way May Be Made Pleasant for Them.

Sofia, Bulgaria. — An atmosphere of uneasiness and uncertainty is discernible here with regard to the outcome of the mission in Paris of the Bulgarian peace delegates. Bulgaria's claims to the Dobruja and her aspirations to Macedonia are still the force in discussion of the peace terms, and despite the limits of possible territorial losses, which have caused concern and brought out some bitter comment, there appears to be a general hope that justice, as it is viewed here, will be done Bulgaria in this respect, and that the questions at issue will be determined independently of her participation in the war on the side opposed to the allies.

Prominent spokesmen among the Bulgarians having given expression of strong desires to see peace brought about through the visit of the mission to Paris, together with the hope, as one of them said, that the terms would be "something that we can swallow." In these expressions both Great Britain and the United States are alluded to as friendly, but the belief in this friendship is varied with less certainty than previously. Utterances indicating dislike of the French are freely heard in the capital, which may be explained as due to the presence of French colonial troops there.

Yorkshire Miners Ignore Leaders

For the Moment the Deadline Is Complete.

London. — Failure of the attempt made at Leeds in a conference of coal miners and their employers to bring the coal strike, which has been in progress for some time, caused surprise and disappointment. The leaders of the miners refused to accept the government's formula to bring an end to the controversy or to be bound by the action of the Miners' federation declaring in favor of a return to work.

Therefore, for the moment, the deadline is complete. No arrangement has been made for the resumption of the conference as far as is known and the outlook is regarded as serious.

Victory Loan Success.

London. — The recent British victory loan scheme amounted to £767,800,000, it was announced in the house of commons by J. Austen Chamberlain, chancellor of the exchequer. This exceeds the amount previously announced by £59,800,000.

Paris. — It is expected in French circles that the discussion of the German peace treaty will open August 10 in the chamber of deputies and will continue for three or four days. There will then be a three or four-day discussion in the senate.

As Japan is supposed to have a copy of the treaty by this time, and the emperor's ratification is expected at an early date, French officials are of the opinion that the treaty will become effective when the French republic ratifies it, about August 20. England has already ratified the treaty, and the signatures of only three great powers are necessary to make it effective.

Race Riots In Chicago

State Troops Established a Barred Zone About Three Miles Square.

Chicago. — Chicago streets are being patrolled by soldiers called out by Governor Lowden at the request of Mayor Thompson for the protection of life and property threatened by the race war, which for some days has terrorized the city.

The state troops established a barred zone about three miles square, roughly from 122nd Street to 35th Street, north and south, and from Michigan boulevard to Wewatow avenue, east and west. This happened when riots in the colored district it faced somewhat subsided, when there was an alarm spread of disturbances outside. New York Central railroad officials reported all their trains being fired on.

Adjutant General Dickson, after an early evening trip through the threatened district, declared the situation was ominous, and his view was shared by the mayor's secretary, who accompanied him.

Hundreds of negroes appealed for protection. Incendiary attacks upon negro homes increased through the day and night. Negro leaders declared that many members of their race stood stolidly by, while drivers of supply wagons feared to enter some parts of the black belt.

New Dominion Loan

Sir Thomas White Says Last Victory Loan Meant Sale of Crops.

Ottawa. — Sir Thomas White states that since September last credits to Great Britain aggregating \$167,000,000 had been furnished by the government for the purchase of last year's wheat crop. In addition about \$25,000,000 had been supplied for the purchase of other foodstuffs and over \$12,000,000 for timber.

It was last year's Victory loan which enabled Canada to grant the extension credits necessary for the purchase of these products, upon whose sale the prosperity of the entire Dominion, agricultural, industrial, commercial and financial, so largely depends. The success of the Dominion loan this fall is regarded as of vital importance to Canada to enable her to meet demobilization expenses and also to provide in part the money for the sale of our wheat and other products.

Germans Buying Copper.

New York. — Moderate quantities of refined copper have been bought for German manufacturing interests, one of the leading selling agencies here announced. Shipments have already been made and are expected to assume larger proportions. The financial arrangement connected with the purchase of the metal are not disclosed.

Women Get Vote.

Helena, Mont. — The Montana state senate has ratified the federal suffrage amendment to the constitution by a vote of 10-1. The house unanimously ratified the amendment.

Norway May Have Spitzbergen

Russia Is Willing That Spitzbergen in Arctic Be Given to Neutrals.

Paris. — The Russian political commission in Paris has advised the peace conference which is considering the disposition of the Spitzbergen Archipelago, which lies in the Arctic ocean between Franz Josefland and Greenland, that the Russians are willing to have Spitzbergen given to Norway. The belief is expressed by the Russians, however, that it will be necessary to have an international convention for the purpose of protecting the rights of persons of various nations having property there.

American Record for Aerial Height.

Minneapolis. — Although failing to establish a world's altitude record, Roland Rohlfs, civilian aviator, flying a Cirrus was bi-plane, set a new American mark when, in an official flight from Roosevelt Field, he reached a height of 30,700 feet, according to the figures on his barograph. The world's record is 33,136 feet, made by Adjutant Casale, of the French army in a flight from Villa Coublay last June.

U.S. Submarine and Two Men Lost.

New London, Conn. — The U.S. submarine C-5, which is listed as an obsolete craft and used for experimental work, sank with open hatch in Long Island Sound, off Pleasure beach in Waterford Bay and two of its crew of eight were drowned. The other members of the crew, all of which were from the submarine base here, were rescued.

If you can't do anything else, you can at least keep out of the fellow's way.

To Save German Navy

Ready to Be Salvaged from Deep Sea Says British First Lord of Admiralty.

London. — The battleship, three light cruisers and eight destroyers of the former German navy, which were scuttled by their crews at Scapa Flow in the Orkney islands on June 22, are ready to be salvaged, it was said in the house of commons by Walter Hume Long, first lord of the admiralty.

Mr. Long said work was proceeding on three other destroyers. He said there was no intention of holding a court of enquiry.

Peace Proposals Not Given Lenient.

London. — Assertions by Liberal papers that Sir Philip Kerr, secretary to Premier Lloyd George, had given a memorandum of peace proposals for the Bolshevik Premier Lenin, to Wm. C. Bullitt, attached to the United States peace delegation were answered in the house of commons by Andrew Bonar Law, government leader, with a denial.

Mr. Bonar Law said that Mr. Lloyd George did not know of Bullitt's mission to Russia until Bullitt returned and he denied that the British premier had given Bullitt any such memorandum.

London Cheered Great Dirigible.

London. — The giant British dirigible R-34, which landed at Pulham, Norfolk, on July 13, after making the first trans-Atlantic dirigible flight, left there for East Fortune, Scotland, the point from which it started for the United States.

The R-34 circled over London at a low altitude during the trip, and was seen and cheered by excited crowds

Prohibition Law Is Passed

Passed in U.S. Lower House By Substantial Majority

Washington.—By a vote of nearly three to one, the house, weary of talk on prohibition, passed a bill for its enforcement with provisions and penalties so drastic as to bring from the men who framed it the prediction that it would for ever suppress the liquor traffic on United States soil.

Exactly 100 members, 52 Democrats and 48 Republicans, refused to support it. Against this even 208, the prohibitionists, putting up a solid front to the very last, polled 287 votes.

The measure now goes to the senate, where many of its restrictions may be modified or stricken out. The chairman of the committee on the bill of this legislative effort might end on the shoal of a presidential veto, although the general view was that it would be signed as passed.

The bill, as it passed the house, provides after January 26, 1920:

Every person permitted under the law to have liquor in his possession shall report the quantity and kind to the commissioner of internal revenue. (This applies to chemists, physicians, etc.)

After February 1, 1920, the possession of any liquor other than that authorized by law shall be a crime, the evidence that it is being kept for sale or otherwise in violation of the law.

It will not be required, however, to report, and it will not be illegal to have in one's possession liquor in a private dwelling while the same is occupied and used by the possessor as his private dwelling, and the liquor is used for personal consumption by the owner, his family or his guests. The possessor of such liquor, however, bears the burden of proof that the liquor was acquired and is possessed lawfully.

Intoxicating liquor is defined as a beverage containing more than one-half per cent. of alcohol. Any house, vehicle, or other place where liquor is manufactured or sold is declared a nuisance. No person shall manufacture, sell, barter, give away, transport, import, export, deliver, furnish or receive any intoxicating liquors.

Liquor for non-beverage purposes, and wine for sacramental use, may be sold under specified regulations.

Denatured alcohol, medical preparations (including patent medicines) unfit for beverage purposes, toilet articles, flavoring extracts and vinegar are exempted.

Registered physicians are authorized to issue prescriptions under strict regulations for the use of liquor in cases where it may be considered necessary as a medicine.

Liquor advertisements of all kinds are prohibited.

Sale, manufacture or distribution of compounds intended for use in the unlawful manufacture of liquor is prohibited, together with sale or publication of recipes for home manufacture.

Hospital Cases Still Arriving

Portland.—Nearly six hundred wounded Canadian soldiers arrived here on the hospital ship Essequibo. The number included 33 commissioned officers and former nursing sisters, and 524 men of other ranks. There were 55 amputations, 58 cut cases, and 44 tubercular patients, also one mental case.

It is estimated there are 3,000 more Canadian casualties to pass through Portland, and that the service will continue until October, the Essequibo and the Araguaia making two more trips each.

A Complete Principle

"How long will a man keep his arm around a girl, do you think?" asked the sweet young thing.

"Until he hears his wrist watch strike," replied the young man in khaki.

"Why, wrist watches don't strike, do they?"

"Of course not."

Felt the Touch

"How do you feel today, old chap?"

"I don't feel at all like myself."

"In that case then, perhaps you will lend me a fiver?"

In Iceland whistling is forbidden as a breach of divine law.

American Paper Writes On Lesson Of R-34

Dirigible Has Possibilities For Peace Apart From Importance In Wars

To the thoughtful citizen the spectacle of the R-34 tugging at her anchors out at Minola should mean far more than a romantic and picturesque episode. The annihilation of space by this huge lighter-than-air machine carries with it astounding implications. Half a dozen such ships as this could carry in a single flight enough of the newest and most deadly explosive material known to man, Lewisite, to destroy New York or London, and they could operate at a height which would render useless almost any present type of anti-aircraft operations save by airplane. Even the latter, if a non-inflammable lifting gas were employed in the dirigible, would be of little avail. John Calverley, who for years before the war conducted an agitation against the use of the airplane as a military weapon, has returned to the fray with these new ideas, and is seeking to have all aerial warfare banned—a courageous even though a somewhat Quixotic endeavor.

To Americans there should be more than casual significance in the fact that the first airplane as well as the first dirigible to cross the ocean should have been British. British mastery of the sea has been undisturbed for many a long year. If the time comes when mastery of the air means everything and mastery of the sea nothing, our English countrymen mean to be on the spot with the necessary men and machines. If we are wise we will provide them with the very least a friendly "never-up" for the honors. The dirigible has so many possibilities for peace, quite apart from its tremendous importance in future wars—if there are to be any—that we cannot afford to stand idly by gazing at what others are doing.

A London cable to the New York Journal of Commerce says that Sir Samuel Clegg calls attention to the serious condition of the fuel situation and says Great Britain's coal output is now 70,000,000 tons less than in 1913.

The New Austria Will In Size Not Measure Much More Than Serbia

It is estimated that the new Austria will in point of size not measure much more than Serbia, with a population slightly below that of Belgium. Of the vast territory which belonged to her under the dual monarchy, regulated from the Ball-Platz, there will remain but one-fifth. Such sooner or later was the inevitable result of this irascible, hold-incompetently together under one political yoke. It was destiny which became more than ever apparent after 1848, when the absorption of Metternich collapsed and the world entered upon a new phase, the recognition of the rights of small nations.

Throughout her history Austria has fought nationalism. She has fought it among the Czechs, Slovaks, Poles, Ruthenes, Croatsians, Serbians and Slovenes; she has fought it among the Magyars, Italians and Romanians, and finally nationalism has won. Twelve months ago the subjects of the Emperor of Austria numbered approximately 46,000,000; the subjects of the people of Austria will number 6,000,000, and the imperial palace in Vienna knows its royal master no more. "The Austrian Empire," declared Bismarck, "is a ramshackle house built with bad bricks and held together by German cement." The words were a typical Bismarckian hint at prophecy; nevertheless which they were; and the prophecy has come true.

Will Refuse to Surrender Ex-Kaiser Geneva.—It is reported from Bern that the Dutch prince consort, who is travelling in Switzerland, has declared in private conversations that Holland will formally refuse to surrender the former German emperor to the allies if asked. Holland, however, would not hinder him from voluntarily appearing before an allied or neutral tribunal, or from returning to Germany, as, according to Dutch laws, the former monarch is considered simply a political exile.

Mounted Police Will Recruit Expect to Raise Force of 2,600 By Fall

Ottawa.—Before the summer is over the Royal Northwest Mounted Police force, it is expected, will be numerically stronger than ever before. The recruiting campaign opened in May is progressing favorably. The objective is a force of between twenty-six and twenty-seven hundred and Commissioner McLean, when questioned in regard to the matter, expressed the opinion that the men required would be secured before the end of the summer. He stated at ready several hundred splendid men have been recruited, many of whom are returned soldiers and former members of the force.

The order-in-council extending the territorial jurisdiction of the mounted police as far east as the Great Lakes and westward to the Pacific coast, also made provision for increasing its size to five thousand men, but it is not planned to raise more than the number mentioned at present. During the war the strength of the Mounted Police force dropped to less than 400 men, so the newly constituted force will be more than six times as great as then. Owing to the greater scope of the work undertaken, however, the larger force is necessary.

The New Geography Will Need Much Study Before It Is Mastered

The geography of Europe will have to be unlearned and relearned now that the articles of peace have been signed. How many people have known what Lithuania is, where it is, who the Lithuanians are, and what their history has been? Not many, and yet Lithuania has had a dramatic, if a rather unchronicled, record. Lithuania is the northernmost barrier between Russia and Germany, a strategic position, which, if she is independent, shuts the gate between East Prussia and Russia, and if she is overwhelmed, opens the gate. Lithuania is north of Poland, with a sea coast line of 100 miles on the Baltic Sea.

Lithuania has retained her national characteristics in spite of hundreds of years of attempted de-nationalization by Germans, Poles and Russians successively. Edicts against her language, her religion, her customs, political repression and economic tyranny have all failed to keep down the little racial nation of 7,000,000 people. Lithuania's people are neither Teutonic nor Slavic, but are a separate branch of the Indo-European race, with a language closely resembling the ancient Sanskrit. In appearance, Lithuanians are tall and powerful, with fair hair and blue eyes. They are an industrious, tenacious people, with a high appreciation of culture, a rare capacity for work, both manual and mental.

Dropping a Hint

A temperance orator was in the habit of holding forth in a workmen's hall and was constantly being interrupted. The next time he lectured in that hall he engaged a prizefighter to sit in the gallery and keep order. He was contrasting the clean content of home life with the squalor of drunkenness.

"What do our daily wants when we return home from our work?" he asked. "What do we desire to ease our burdens, to gladden our hearts, to bring smiles to our lips and joy to our eyes?"

As the orator paused for breath the prizefighter shook his fist at the unruly members of the gallery and whispered in a loud undertone: "Mind, the bloke that says 'beer' I'll throw outside."

Growing Building Activity

As in the other cities in Western Canada, there is considerably greater activity in the building and allied trades in Edmonton, Alberta, this year than there has been for some years. Permits granted in this city already exceed in value the permits granted during the whole of last year by over \$80,000. These permits are chiefly for residences, but they also include some business buildings.

W. N. U. 1275

Have Them On The List Leading Evil Spirits Of German Nation May Be Punished for Their Crimes

London.—Among the German army and navy officers and civilians who must stand trial for crimes committed during the late war are at least half a dozen in addition to the ex-kaiser who may be classed as leaders of great influence and prominence in the old Germany. Two princes, an ex-cabinet member and several famous generals are found on the long list in the international rogues' gallery. Some may be tried in Paris, others in Brussels, while still others may face their doom in London and be imprisoned in the famous old tower. It seems to be assured that the defendants will include the following men:

Crown Prince Rupprecht, of Bavaria, who ordered his men to take no Britishers alive. Admiral Edward Charles Ernest von Capelle, the German minister of marine, succeeding von Tirpitz, is the cabinet minister who faces arraignment for unrestricted submarine warfare.

Field Marshal August von Mackenhausen is charged with thefts, incendiarism and executions in his spectacular onslaught into Rumania in 1916.

Gen. Otto von Bulow is charged with the burning of Ardennes and the shooting of 100 persons. He served in Russia, but made an ill-fated effort to save Monastir, and later led the Austro-German forces in the offensive against the Italians along the Isonzo in October, 1917.

Other German leaders who probably will be required to face trial are Baron von Lancken, head of the German political department in Brussels during the war, who might have saved Edith Cavell and Captain Frydarski; and von Forstner and Lieutenant Werner, U-boat pirates; General Liman von Sanders, head of German-Turkish forces in Asia Minor, who acquiesced in the Armenian massacres; and General Baron Kurt von Manteuffel, who was military commander of Louvain when Sir Cavell was slain, and is held jointly responsible with Baron von der Lencken for her death.

British Mines Flooded For Nearly Half Century Ventilation of Pits Has Been Going Constantly

London.—A dispatch to the Evening News from Bradford, Yorkshire, announced that pumping would cease in the remainder of the Yorkshire coal mines. This would be the first time in the years that ventilation in the mines had been stopped. The correspondent adds that the defiance of the Miners' Federation by Herbert Smith, president of the Yorkshire Miners' Association, in his strike of the miners would fight to a finish, created a sensation in Bradford. The dispatch adds that a long strike is feared.

The flooding continued in several mines, but it is stated that not more than six of them were flooded out. Naval men are pumping at three mines, and additional sailors are on their way to the strike districts, but some offers of naval help have been refused by mineowners and managers, who expressed the fear that through resentment at the employment of sailors, the miners would start disorders, which up to the present have not occurred. At some of the collieries pumping has been called off by the managers and their staffs, including clerks.

A local strike of 8,000 miners at Leigh, Lancashire, has been called off, the settlement being entrusted to the Miners' Federation. It is understood that the government will warn towns drawing supplies from the strike district that they must curtail their consumption of gas, electricity and water. Train services will also be reduced.

Prizefighters of the northern districts are also, increasing. Thirty thousand workers at Leeds and Sheffield are already idle through the compulsory closing of various works.

A Doubt

He: "But, my angel—"

His Wife: "One moment, please—is that a hope or a compliment?"

An old bachelor says love is more like a pestilence than a disease.

1919 Wheat Crop Prospects Dominion Statistics Show Increase in Acreage of 91 Per Cent

Ottawa.—The Dominion Bureau of Statistics has issued the revised estimate of the areas sown to spring grains, potatoes and hay, an estimate of the areas sown to late cereals and a statement of the condition of grain, grass and potato crops. The estimates, both of area and of condition, are compiled from the returns of crop correspondents on June 30.

For all crops, excepting rye, the areas now estimated are larger to the extent of 1 or 2 per cent. than those reported a month ago as applying to the end of May. The total area under wheat is now estimated to be 17,282,570 acres, spring wheat occupying 16,484,828 acres, and fall wheat 797,750 acres, or 91 per cent. more than last year's harvested area. The area sown to oats is placed at 14,754,150 acres, or 0.3 per cent. less than last year. Barley is 3,017,920 acres, per cent. more; rye, 565,275 acres, 2 per cent. more; peas, 213,283 acres, 10 per cent. less; mixed grains, 886,650 acres, 4 per cent. less; hay and clover, 10,662,870 acres, 1 per cent. more, and alfalfa, 196,793 acres, 0.2 per cent. more. In the three prairie provinces the estimated area under wheat is 15,751,790 acres, comprising 29,200 acres in Manitoba, 8,972,000 acres in Saskatchewan, and 3,850,600 acres in Alberta; under oats, 9,561,000 acres, comprising 215,000 acres in Manitoba, 5,088,000 acres in Saskatchewan, and 4,265,000 acres in Alberta; and under barley the acreage is 2,192,000, comprising 1,103,000 acres in Manitoba, 657,000 acres in Saskatchewan, and 432,000 acres in Alberta.

The acreage under late sown cereals and hood crops are for Canada as follows, last year's final estimates being placed within brackets for comparison:

Buckwheat, 335,225 (548,079); flax, 1,069,330 (1,068,120); beans, 166,066 (228,577); potatoes, 712,665 (735,192); turnips, etc., 330,935 (434,070); corn for fodder, 487,115 (502,069). By percentages, the areas under buckwheat and flax are practically equal to last year, corn for husking and turnips, etc., are 4 per cent. less, potatoes and fodder corn are three per cent. less, and beans are 27 per cent. less.

The condition of the principal grain crops at the end of June indicates that for the fourth successive year the yields for Canada will be below those of the decennial average.

Expressed numerically, the condition of the decennial average in percentage of the decennial average is: wheat, 85 (last year's condition on June 30 is given within brackets)—Fall wheat, 102 (71); spring wheat, 90 (86); all wheat 91 (85); oats, 87 (91); barley, 91 (93); rye, 97 (93); peas, 92 (99); mixed grains 91 (99); hay and clover, 92 (87); alfalfa, 96 (85); pastures, 100 (88); and potatoes, 95. In Manitoba the condition of wheat is 100 per cent. as against 88 last year; in Saskatchewan, 91 against 85, and in Alberta, 80 against 83.

Why It Thunders Lightning Flash Through the Air May Be Several Miles in Length

Why does thunder rumble? The path of a lightning flash through the air may be several miles in length. All along this path the sudden expansion of the heated air—a true explosion gets up an atmospheric wave which spreads in all directions, and eventually registers upon our eaks as thunder.

Since lightning discharge is almost instantaneous, the sound wave is produced by a very nearly the same time along the whole path. Be the sound wave travels slowly through the air. Its speed is approximately 1,090 feet per second. Thus the sound from the part of the lightning's path that is nearest to us reaches us first, and that from other parts of the path afterwards, according to their distance. Intermittent crashes and booming effects are due chiefly to irregularities in the shape of the path.—Popular Science Monthly.

"Sure, an' I'vey toime I fed in me trousers' pocket fer me knife, 'tis always in the ilher pocket."

"This yez ought to look in the ilher pocket first."

GOLD-LEAF

Shoe Dressing

Indemnity For Rumania And Serbia

Paris.—Rumania and Serbia are awarded the great prize more than a billion francs indemnity demanded under the Bulgarian peace terms which are nearly finished, according to the Excelsior; the remainder of the amount will be given to Greece, the paper says.

SUFFERING CATS! GIVE THIS MAN THE GOLD MEDAL

Let folks step on your feet less after wear shoes a size smaller if you like, for cats will never again send electric sparks of pain through you, according to this Cincinnati authority.

It says that a few drops of a drug called frezone, applied directly upon a tender, aching corn, instantly relieves soreness, and soon the entire corn, root and all, lifts right out. This drug is a sticky ether compound, but dries at once and simply shrivels up the corn without inflaming or even irritating the surrounding tissue.

It is claimed that a quarter of an ounce of frezone obtained at any drug store will cost very little, but is sufficient to remove every hard or soft corn or callus from one's feet. Cut this out, especially if you are a woman reader who wears high heels.

Rural Motor Transport

The first rural motor transport in Western Canada was established this spring at Winnipeg, Manitoba, where a service is maintained which runs about forty miles out of this city. It is intended to extend this service; and with the general improvement of roads that is certain to be made during the next few years, similar services will no doubt be opened at other points in the country.

Would Remove Sex Disqualification

Women May Be Entitled to a Seat in the House of Lords

Westminster, Eng.—The Sex Disqualification-Removal Bill which has been introduced provides that an individual shall not be disqualified by sex from the exercise of any public function or from being appointed to any civil or judicial office or post or from entering or assuming any civil profession or vocation, and shall not be exempted by sex from liability to serve as juror.

The King may include in letters patent for the creation of peer of the United Kingdom a provision to the effect that where the holder of a peerage is a woman, she shall, if otherwise qualified, be entitled to a seat, place and voice in the House of Lords.

Air Freight Line Planned

Bridgeport, Conn.—Bridgeport is ready for the establishment of an air freight and passenger line, as an air line is planned in New York by the National Air Service Corporation, which plans to operate an aerial transportation system between New York and Boston with stops in this city and New London. Several months ago the chamber of commerce appointed an aviation committee, headed by former army officers. A landing field was selected. This field will be used as a landing place for the air line according to announcement made here. Two biplanes will be used by the service.

A Standard Medicine.—Farnelle's Vegetable Pills, compounded of entirely vegetable substances known to have a revivifying and salutary effect upon the digestive organs, have through years of use attained so eminent a position that they rank as a standard medicine. The ailing should remember this. Simple in their composition, they can be assimilated by the weakest stomach and are certain to have a healthful and agreeable effect on the sluggish digestive organs.

Obituary Poetry

We do not print obituary poetry unless it is paid for at regular advertising rates, so don't go to the trouble of copying or composing it unless you wish to pay for having it printed. The doctor, undertaker and preacher all get paid for their services, but the printer is expected to set obituary poetry for the fun of the thing.—Bolder, Mo., Telephone.

As a verminifer there is nothing so potent as Mother Graves' Worm Expeller, and it can be given to the most delicate child without fear of injury to the constitution.

Cheap Harvest Rates

Transfer of Farmers from the Dried-Out Sections of Saskatchewan.

Regina, Sask.—As a result of the conference between T. M. Molloy, commissioner of labor for Saskatchewan, and the heads of the three big railways in Winnipeg the latter end of the week, the railway companies have agreed to put cheap harvest rates in effect for the transport of farmers from the dried-out sections of Saskatchewan who wish to go out harvesting this season.

It was decided to provide transportation for these farmers at the special rate of one cent per mile, the rate to be in operation from August 1 to 20, inclusive. The tickets will be good to any destination in Manitoba or Saskatchewan from the following points: Swift Current, Maple Creek, Kildonan, EastEnd, Cabri, Leader, Elroyne, Riverhurst and North Battleford.

W. N. U. 1275

Canadians Are Delayed By Strike

London.—The strike of the dock workers at Liverpool caused a great deal of inconvenience and irritation to Canadians homeward bound where cases have evoked much sympathy. Fifteen hundred soldiers' wives and dependents who were on the Scotian and whom were held up for six days, were billeted in hotels and boarding houses. The Empress of Britain was sent to Glasgow. The officer commanding the waiting Canadian troops interviewed the dockers' union officials in an attempt to get the steamers released, but without avail.

STOMACH TROUBLE

Comes When the Blood is Weak and Watery.

Thin blooded people generally have stomach trouble. But they seldom recognize the fact that thin blood is the cause of their indigestion, but it is.

Thin blood is one of the most common causes of stomach trouble; it affects the digestive system, weakens the stomach muscles and weakens the blood-making power. The glands that furnish the digestive fluids are diminished in their activity, the stomach muscles are weakened and there is a loss of nerve force. In this state of health nothing will more quickly restore the appetite, digestion and normal nutrition than good, rich, red blood.

Dr. Williams' Pink Pills act directly on the blood, making it rich and red, and this enriched blood strengthens weak nerves, stimulates the muscles, and awakens to normal activity the glands that supply the digestive fluids. The first sign of returning health is an improved appetite, and soon the effect of these blood-making pills is evident throughout the whole system. You find that what you eat does not distress you, and that you are strong and vigorous instead of irritable and listless. You are on the road to sound, good health and care in your diet is all you need. If your appetite is fickle, if you have any of the distressing pain and symptoms of indigestion you should begin to cure yourself at once by taking Dr. Williams' Pink Pills.

These pills are sold by all dealers in medicine or you can get them by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Most people are sorry only after it is too late.

Minard's Liniment Cures Colds, Etc.

Band to Come With Prince. London.—The Royal Marine Light Infantry band, Plymouth division, has been selected to accompany the Prince of Wales to Canada.

Catarhal Deafness Cannot Be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure Catarhal Deafness, and that is by a constitutional remedy. HALL'S CATARRH MEDICINE acts through the blood on the mucous surfaces of the system. Catarhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed, it has a tendency to close, and hearing is impaired. The inflammation can be reduced and this tube restored to its normal condition. Many cases of deafness are cured by Hall's Catarrh Medicine. ONE HUNDRED DOLLARS for any case of Catarrhal Deafness that cannot be cured by HALL'S CATARRH MEDICINE. Dr. J. Cheney & Co., Toledo, Ohio.

It is impossible to judge a woman's like or dislike for another by the manner in which they kiss when they meet.

Air Force Decorations

Investitures to be Made by H.R.H. The Prince of Wales.

Toronto.—In connection with the coming visit to Canada of His Royal Highness the Prince of Wales, the air ministry, London, England, have made arrangements for the investiture of personnel of the Royal Air Force now residing in Canada with decorations won in any theatre during the war. Application for investiture should be made to R.A.F. headquarters, Toronto.

Automobile may be the poetry of motion until the machine breaks down; then it is blank verse.

Montreal, May 29th, '09. Minard's Liniment Co., Limited.

Gentlemen,—I beg to let you know that I have used MINARD'S LINIMENT for some time, and I find it the best I have ever used for the joints and muscles.

Yours very truly,
THOMAS J. HOGAN.
The Champion Clog and Pedestal Dancer of Canada.

The Way It Felt

The Dentist: Thought you said this tooth hadn't been stopped before?
The Patient (cheerily): No, it hasn't.
The Dentist: Well, there are traces of gold on my instrument.

Perhaps you've struck my back collar stud!

For Burns and Scalds.—Dr. Thomas' Electric Oil will take the fire out of a burn or scald more rapidly than any other preparation. It should be at hand in every kitchen so that it may be available at any time. There is no preparation required. Just apply the oil to the burn or scald and the pain will subside and in a short time cease altogether.

German Talk of Vengeance.

The following appeal addressed to the German people in the Danubian Zeitung is regarded as characteristic of the views prevailing in German Conservative circles.

"Today a peace of shame is being signed in the Hall of Mirrors at Versailles, forget it not! In the year 1871 the German Empire arose in its old splendor; German honor is today being carried to its grave, forget it not! In unrelenting labor the German nation will again rise to regain for itself its place amongst the nations which is its due. Then, revenge for the indignity of 1919."

Yes, Thelma, there would be fewer divorces in this vale of tears if there were more good cooks.

THE NEW FRENCH REMEDY, DR. H. H. H. THERAPION

It is a reliable regulating medicine. Sold in three doses of strength—No. 1, 10c; No. 2, 25c; No. 3, 50c per box. Sold by all druggists, or sent by mail on receipt of price. Address: THE COOK MEDICINE CO., TORONTO, ONT. (Formerly Walcott).

COOK'S Cotton Root Compound

When ordering goods by mail, send a Dominion Express Money Order.

Build Without Nails

In Alberta, there is a village whose houses have been constructed without nails. The houses were built by Rumanian immigrants. The buildings are of the typical Rumanian style—log, pitch-roofed, thatched and wide in the eaves. Even the door, an affair of slender twigs, woven and laced together, swings on homemade hinges and is latched with a wooden hasp. The floor is of hewn logs unnailed. The roof is a wonderful fabric of poles and cross-ways wheat-straw, 10 inches thick, packed tight and solid, and laid with such care that it will endure any weather for 20 years.

GIRLS! WHITEN YOUR SKIN WITH LEMON JUICE

Make a Beauty Lotion for a Few Cents to Remove Tan, Freckles, Sallowness. Your grocer has the lemons and any drug store or toilet counter will supply you with three ounces of orchard white for a few cents. Squeeze the juice of two fresh lemons into a bottle, then put in the orchard white and shake well. This makes a quarter pint of the very best lemon skin whitener and complexion beautifier known. Massage this fragrant, creamy lotion daily into the face, neck, arms and hands and just see how freckles, tan, sallowness, redness and roughness disappear and how smooth, soft and clear the skin becomes. Yes! It is harmless, and the beautiful results will surprise you.

Cop to homing clubman: "Where are you going at this time of night?" Clubman: "I'm—hoin'—go' to a lecture."—Boston Transcript.

Meeting of Stockmen with Government in Calgary

A meeting of Southern Alberta stockmen was held in the City of Calgary, on July 31st, under the auspices of the Board of Trade for the purpose of giving the stockmen an opportunity of laying before the members of the Provincial Government details of the feed situation in Southern Alberta. The Premier, Minister of Agriculture, Minister of Public Works and Provincial Treasurer represented the Government. A large number of ranchers and farmers were present and set out the situation to the Government.

A large number of old timers gave their views on the subject including A. E. Cross, Calgary, Ed. Munnell of Macleod and P. Burns of Calgary. They urged upon the Government the necessity of putting into effect some reduced rates for the transportation of stock to feed areas in the north and the transportation of feed from the north to the south. They urged that everything possible be done as the situation was exceedingly serious. The Premier and Minister of Agriculture outlined what the Government had already done. This included the arrangement for free rates with the Railway Companies for stock shipped north to the feeding grounds and return before the fall of next year, free rates for hauling outside both ways and free rates for hay shipped into the dry area from any of the Prairie Provinces. The expense of this is being borne by the Dominion and Provincial Governments and the railways. Arrangements are being made by the Provincial Government for the purchase of hay in Ontario and in Manitoba. The Minister of Agriculture stated that if possible at least one hundred thousand tons would be secured in this way. The Minister also promised that a man would be placed in the Calgary Stock Yards for the purpose of looking after the sales of animals shipped in by farmers to be sold on the Calgary market. A complaint was made that outside buyers were going through the country buying stock from people who are dried out and were not paying them market value. The members of the Government urged that farmers ship their cattle to the Alberta Stock Yards in Calgary where a representative of the Department of Agriculture would see that they sold for their full value and proper returns made. Correspondence respecting this should be addressed to Mr. O. Marker, Dairy Commissioner, Calgary.

Quite a large amount of feed has been secured in Northern Alberta, Northern Saskatchewan and Northern Manitoba. Information respecting feed and feeding grounds can be secured by writing to Mr. J. D. Smith, Department of Agriculture, Edmonton, who is in charge of this work for the department. The department has had several men travelling throughout the north country looking for locations on which to cut hay and to winter cattle. Many men have already been directed to such places and the department still has a number of good locations, information about which can be secured by writing to Mr. Smith or calling at his office.

Application forms for securing reduced rates may be secured from the local railway agents. The application should be forwarded to Mr. J. D. Smith, Department of Agriculture, Edmonton, and if in order a certificate will be issued by the issued by the Provincial and Dominion Departments locally which will entitle the holder to secure free rates under the Relief Tariff.

Any stockman or farmer who does not own more than one hundred head of cattle or three hundred head of sheep may ship two carloads under the Relief Tariff. The stock may be shipped from south of a line running from Lloydminster to Chipman to Tofield to Camrose to Wetaskiwin but can not be shipped from one province to another. This stock must

be moved prior to July 1st, 1919. Seven carloads of feed may be shipped into the dry area from any part of Alberta north of the line mentioned or from Saskatchewan and Manitoba.

Canadian Industrial Congress

From facts presented at the last meeting of the program committee of the Alberta Industrial Congress, held Wednesday, it was shown that there is certainly a good attendance at the congress from Eastern Canadian and American points. The committee completed plans for the big industrial gathering and appointed small committees to look after the several branches of the congress work for the week of gathering.

Those present at the meeting represented the Board of Trade of Calgary, Edmonton and Medicine Hat, as well as the Provincial Government and the Alberta Industrial Development Association. Among those present were Premier Stewart and E. R. Mitchell, provincial treasurer, both of whom stayed at the meeting for a short period of time and heard of plans for the Congress.

The itinerary for the special train was fixed. It will leave Medicine Hat at 8:00 o'clock on the morning of August 12th, will leave Lethbridge at 4 o'clock in the afternoon of the same day, will arrive at Calgary at 9 o'clock that evening. After the Calgary congress, the sessions of which are to take place at the Grand Theatre, the train will depart for Edmonton early on the morning of August 15th. It will leave the capital city for Banff on the night of the 16th, arriving in the mountain resort at about 9 o'clock on the morning of Sunday, August 17th.

Those present at the committee meeting were: Alderman A. Mahaffy, W. D. Sprung, George Craig, John F. Sweeting, J. B. Sutherland, and J. M. McGreevy, all of Calgary; E. M. Chudleigh, M. A. Brown, of Medicine Hat; M. Cowan, of Edmonton and Premier Stewart and Hon. C. R. Mitchell.
